

Circulation rules for the area around school

Please make sure you communicate those points with the person who brings your children to school, if necessary (driver, ayi, etc.). This is to make traffic easy around the school, as well as to ensure that all children remain as safe as possible:

- The reserved bus lanes in front of the school must be kept clear at times of arrival and departure of school buses. **It means that private cars and taxis should not access the lanes during that time, even only for a quick drop off.**
- That is also the case for two-wheeled vehicles, motorized or not, that are not to be driven on the sidewalk. Designated parking spaces are available.
- Cars that bring children between 7:30am and 8am must do it **on the parking lots in front of the school, and never on the road.**
- **Please, be respectful and follow** the instructions given by the crossing attendants.
Please, help them help your children!

Those rules are common for both LFS and DSS schools.
