## WELCOME TO SHANGHAI FRENCH SCHOOL

Shanghai French School (known in french as **Lycée Français de Shanghai, or LFS**) belongs to the AEFÉ (Agency for French Teaching Abroad) network. It is an international nonprofit school which welcomes students of multiple nationalities, from kindergarten to the French Baccalaureate (from 3 to 18 years old) on its Qingpu and Yangpu campuses.

Anne-Sophie Gouix  
Shanghai French School  
Head of school.

Shanghai French School offers a unique multicultural and multilingual environment in Shanghai which emphasizes our students' academic excellence and personal development in the respect for others

## ACADEMIC EXCELLENCE

In compliance with the French Ministry of National Education, Shanghai French School offers structured and coherent curricula. **They are the programs from the French Ministry of National Education.** Our students acquire solid academic foundations and working methods, a rich general knowledge, and intellectual curiosity. They develop their capacity to analyze and sharpen their critical ability.

*Our school was created by a small group of parents keen to offer quality education to their children, based on the idea of equality and cost sharing. To this day, these values remain at the heart of Shanghai French School and its nonprofit governance.*

**David Péchoux**  
Shanghai French School  
Executive Director.

## OPENNESS & DIVERSITY

Shanghai French School puts multilingualism at the core of its academic offer, with **language sections** adapted to our students' needs. Our curriculum is trilingual (French, English, and Chinese) starting from kindergarten and offers a **tailored French language support for non-French speakers**. We give our students the tools to understand, adapt, engage, and act in a changing world.

## WELLBEING

At Shanghai French School, each student is **personally accompanied**, regardless of his/her cultural background, to better take his/her needs into account and favour his/her wellbeing. We highlight cooperation and mutual assistance between students, support children with special academic needs, and pass on universal humanist values to today's students who will become tomorrow's citizens.

## A UNIQUE WORLDWIDE NETWORK

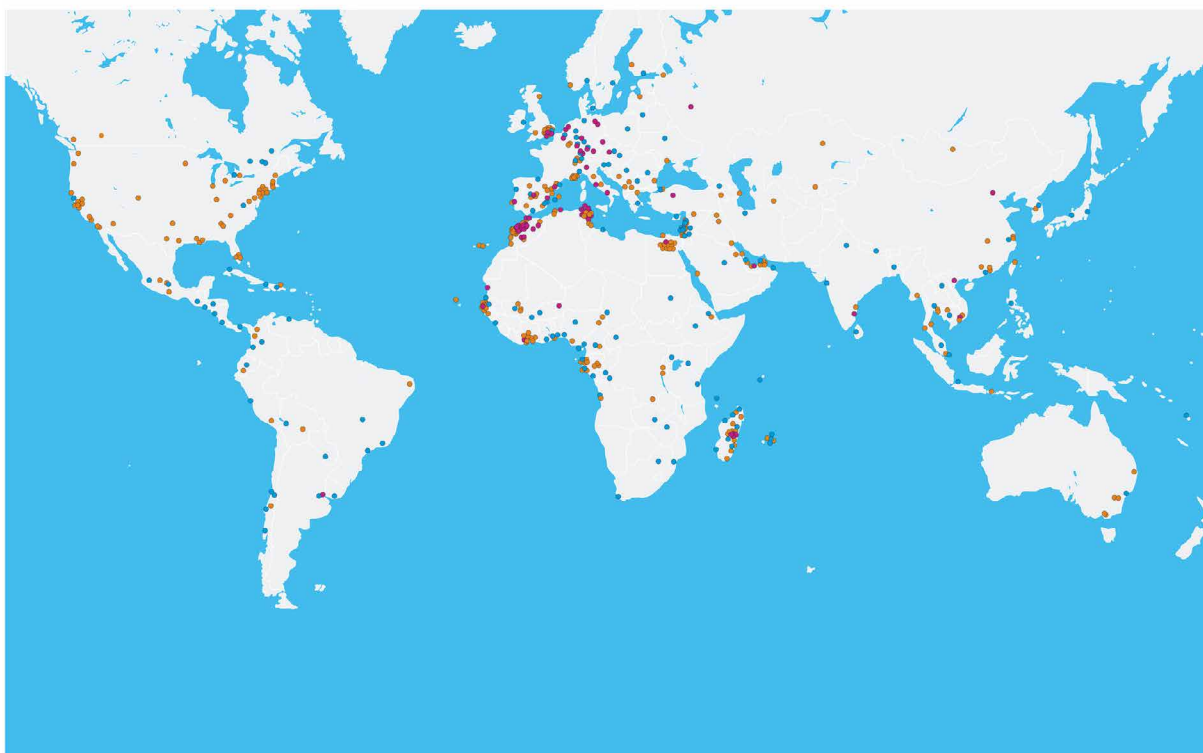

Shanghai French School is the member of a unique worldwide network, the Agency for French Teaching Abroad (AEFE), made up of 535 schools in 139 countries. Shanghai French School

affiliation to the AEFE allows us to offer families the opportunity to access French education and to offer their children the possibility to continue their schooling all around the world.

- Education continuity around the world
- French National Brevet and Baccalaureate exams
- A committed and qualified team

## ONE SCHOOL, TWO CAMPUSES

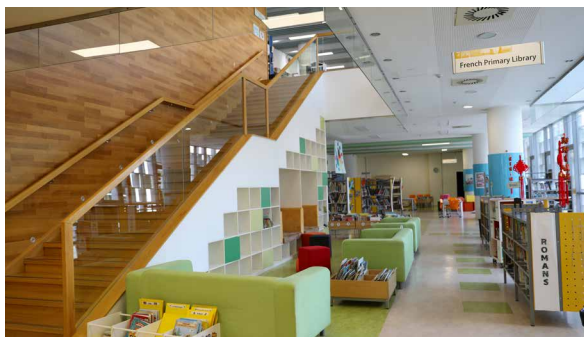

**Ensemble,** *Together is better*

*c'est mieux !* 

Shanghai French School is the only French school to share two Eurocampuses with the German School. It is a real opportunity for our students to benefit from a unique multicultural environment in Shanghai!

In Qingpu just like in Yangpu, our Eurocampuses offer infrastructures of quality for our students' development and wellbeing: sports centres, swimming pool, theater, libraries, international canteens, art centres. **Together is better!**

### \_Qingpu Campus | 50 000 m<sup>2</sup>

Inaugurated in 2005, Eurocampus Qingpu is located in the heart of Greater Hongqiao, a dynamic and connected hub in the rapidly developing west of Shanghai. The campus, shared with the German school, has all the infrastructures allowing optimal study and living conditions for our students: media library of 1000 square meters, swimming pool of 25 meters, art center with theater hall with 190 seats, gymnasium and stadium.

### \_Yangpu Campus | 56 000 m<sup>2</sup>

Yangpu, a green campus: optimised building orientation, use of high-quality material, geothermic, LED lighting, numerous green spaces and the use of natural bamboo prove the ecological ambition of the campus.

Yangpu campus will be the first school in Asia to obtain the LEED Platinum international certification which is the highest certification in terms of environmental quality for an architectural project.

## | OUR CURRICULUM

From K1 to Grade 12, Shanghai French School offers the curriculum of the French Ministry of National Education enriched with unique linguistic streams. Accreditation by AEFE (Agency for French Teaching Abroad) guarantees the quality of our teaching and its conformity to the French education curriculum. Our curricula lead to the **French Baccalaureate** (and its International American and Chinese options).

Our objective is to give each student, regardless

### ◦ The General Stream

In this stream, children develop their oral and written abilities in the 3 languages and build strong grammatical foundations. The stream offers 2 hours of English and Chinese per week in Primary school; then up to 4 hours of English and 3 hours of Chinese per week. Chinese and English classes take place in language ability groups according to each child's proficiency, and with the possibility to move between groups over the course of the academic year.

SIC video

of his/her cultural background, all the chances to **think, communicate, and freely evolve in an open and multicultural world**. Enhancing their talents does not only giving them a solid academic foundation but it also considers the differences, the needs, and the abilities of each student, thanks to a **personalized support system**.

## A trilingual education

Shanghai French School has made **language learning** one of its priorities with French, English and Chinese languages taught from kindergarten on. To offer students a stimulating multicultural environment, Shanghai French School offers four unique streams, adapted to each student's needs.

### ◦ The International Chinese Section (SIC)

The International Chinese Stream at Shanghai French School is a unique linguistic, cultural and scientific curriculum. Provided from K1 until Grade 12, it allows students to study Chinese language, literature and culture whilst learning mathematics in Chinese. This broad and in-depth stream, which comes on top of the general French curriculum, allows students to reach a remarkable level of skills and knowledge at the end of high school and at the beginning of their path in higher education.

Our students progress continuously thanks to a dedicated teaching program (six hours of Chinese per week in Primary School and up to 8.5 hours in Secondary School) as well as a language environment. Students get to acquire an exceptional knowledge of the Chinese world, the richness of its language, literature, culture, arts, and scientific mindset. In Primary school, language, mathematics, arts, science, history, and geography are taught in Chinese. In Secondary, we focus on Chinese language and literature, mathematics and arts.

## ◦ The International American Section (SIA)

Students in SIA enjoy reading, literature, and literature analysis. It is more specifically tailored for motivated students able to take on an increased workload, heavier than in other streams. It allows students to practice English with depth and to reach a bilingual level.

## ◦ The European Stream (SEA)

Within this stream, students strengthen their skills, acquire a very high level of English and a deep knowledge of the Anglo-Saxon culture. In SEA, English is a daily communication tool (press articles, news reviews). The approach is more holistic and less based on literature.

In Primary School, the SEA offers 6 hours of English language, to which are added mathematics, sports, visual arts, history, or science in English. In Middle School, the SEA offers 10 hours of teaching in English. In High School, students prepare the Baccalaureate with a European specialty (which includes an oral exam in mathematics or history-geography in English).

## | TEACHING NON-FRENCH SPEAKERS

Studying in French when it is not my mother tongue, is it possible? The French as Language of Instruction (FLSco) program allows students who begin in French to fit in the French education system. Courses target children from K3 on. 350 students

currently enrolled at Shanghai French School went through the FLSco program. This curriculum, which generally takes two years, allows students to gain access to the basic learning required at school.

## A WIDE RANGE OF SPORTS AND CULTURAL ACTIVITIES FOR ALL

Sports and cultural activities (ASC) are an integral part of school life at Shanghai French School. To better express oneself, interact with others, develop creativity, and go the extra mile are complementary learning tools which allow

students to fully grow outside of the classroom. We offer over 50 activities on both our campuses, all supervised by skilled contributors, from K3 to Grade 12, in English, French, and/or Chinese.

### \_After Shanghai French School, where do our students go?

## OUR PARTNERS

The Shanghai French School wishes to continue to improve its environment and to bring ever more to its community, **by developping cooperation with companies.**

We **warmly thank the partner companies and sponsors** who trust us and support the development of our establishment. All year long, companies invest themselves in the life of our school: by helping our students in their academic and professional career path, by sponsoring the events that bring us together and unite

us throughout the year and by supporting our development projects such as the Yangpu campus.

**They contribute to the creation of an exceptional environment** that founds the relationship of trust between our school and families.

Moreover, the education of excellence that our school provides is **a determining factor of attractiveness** for their expatriates and even for Chinese employees returning from expatriation.
