# SHANGHAI FRENCH SCHOOL

## LYCÉE FRANÇAIS DE SHANGHAI

A truly international school  
welcoming **1,530** students **aged 2 to 18**  
from all cultures around the world

### | Our vision

Today in Shanghai excellence for everyone,

Tomorrow in the world success for all.

### | Message from the Principal

#### Welcome to Shanghai French School!

Choosing a school is a defining decision, one that commits a child, a family, and a vision for the future. At Shanghai French School, we are fully aware of this responsibility. Our school welcomes students aged 2 to 18, including non-French-speaking students, from all over the world. Anchored in the French education system and a member of the AEFE network, it offers a demanding and internationally recognized education leading to the French Baccalaureate, within a trilingual environment unique in Shanghai: French, English, and Chinese.

Beyond academic programs, the Lycée Français de Shanghai is a caring and committed educational community. Our teams support each student with high expectations and kindness, placing well-being, self-confidence, and personal balance at the heart of our educational project. Located in the heart of Shanghai, our school, across its two campuses, prepares students to succeed in the most prestigious French institutions and international universities, and to thrive as global citizens.

Laurent Fouillard  
Principal

# Why choose

## Trilingual Education

### The AEFE Guarantee

Part of a 580-school network ensuring top-quality education with globally recognized standards and seamless global transitions for expat families.

A trilingual school starting from kindergarten: **French, Chinese and English** are mandatory. The school is offering dedicated streams with a stronger focus on English (SIA, SEA), Chinese (SIC, SOC) or French (General Stream).

\*See page 17 for more information.

## Academic Excellence

A rigorous French curriculum based on the esteemed standards of the French Ministry of National Education and leading to the Baccalaureate, a prestigious high school diploma recognized by top universities worldwide, similarly to the IB, A-levels or AP.

**Top 10 French Schools in the World in 2024 and top 2 French International schools in Asia in 2025**

\*Based on the prestigious Concours Général des Lycées and baccalaureate results

\*See page 6-13 for more information.

# ose us ?

## Global Opportunities

Access to the world's most prestigious universities and schools for our graduates in France, UK, US, Canada, Australia, Asia...

\*See page 14 for more information.

## Student's Well-being

Surveys show it: our students love coming to school! From kindergarten to high school, they're thriving in a community fueled by creativity, sports, culture, and travel.

\*See page 20-21 for more information.

## True Diversity

A vibrant mix of **60** nationalities with a strong European core! Thanks to our program for Non-French speakers, we integrate students from all cultural backgrounds.

\*See page 18-19 for more information.

## Two stunning Eurocampuses

shared with the German School (DSS), our Qingpu and Yangpu campuses span 50,000+ m<sup>2</sup>, featuring state-of-the-art facilities, such as theater halls, gyms, stadiums, and 25-meter swimming pools.

\*See page 24 for more information.

# The French School System

Our campuses are expertly designed to support every stage of a child's development, from age 2 to 18. With dedicated areas for each age and early primary students, we offer a tailored environment that evolves with your child, ensuring they thrive at every age.

# Kindergarten curriculum & daily framework

Kindergarten at Shanghai French School is a crucial step in both social and academic development. Learning is trilingual from K2 (MS), with a combination of play-based and structured activities designed to build early literacy, numeracy, and motor skills.

## Classroom & Teaching Organization

Each class has one main teacher and specialized native-speaker language teachers.

Our Kindergarten area is designed for young learners, featuring motor skills zones, outdoor play spaces, creative areas, and nap spaces.

## Development Goals

We focus on five key developmental areas to help children grow into confident, curious, and socially engaged learners.

- 1. Plurilanguage** – Express yourself and learn school and daily vocabulary, gradually progressing toward specialized language streams.
- 2. Physical Activities** – Learn how to move your body and develop fine motor skills through mini-games, mini-sports, and dance.
- 3. Artistic Activities** – Learn how to create and build, understand which tools can be used, and how to hold them properly.
- 4. Structured Thinking** – Learn to follow guidelines, build self-confidence, work on logic, and understand basic principles of quantities.
- 5. Exploring** – Discover the world, improve focus, and develop social relationships.

## School Hours

**Monday, Tuesday, Thursday:**

8:00 AM – 3:00 PM

**Wednesday, Friday:**

8:00 AM – 12:30 PM,

1:00 PM – 3:00 PM slot is for extracurricular activities at school (optional)

**Monday – Friday:**

3:00 PM – 5:00 PM: Daycare at school (optional)

## Homework & Workload

No formal homework is assigned. However, as students approach Grade 1, they begin light reading practice at home.

## Our Special Class for 2-Year-Olds

At Shanghai French School, our pre-kindergarten class (TPS) offers a warm and structured environment for two-year-olds, helping them develop essential social, emotional, and language skills before starting K1.

- Small class sizes
- A dedicated team of a French teacher and 2 bilingual assistants
- Learn through play, interaction, and guided activities
- A safe and nurturing space with snacks and nap time

## Sample Schedule for Kindergarten

- Pre-K and K1 have nap time after lunch.
- School buses are available on Wednesdays and Fridays after lunch for children not in the extracurricular program.
- In Kindergarten, we don't divide the day into rigid blocks like "Math" or "Reading." Instead, our teachers design engaging, hands-on activities that naturally integrate multiple skills.
- For example, during an arts and crafts session in English, children might create a bracelet where they change colors every two beads—this reinforces numeracy, memory, and language skills simultaneously.

\*Note that this schedule is just a sample. The daily program may vary by teacher and season.

**AGES 6-11**

# Elementary school curriculum & daily framework

Elementary school marks the beginning of formal reading and writing while expanding into passion subjects like science, history, and the arts. LFS maintains a trilingual approach to learning, ensuring a well-rounded education.

## Classroom & Teaching Organization

Each class has one main teacher and section teachers for languages.

Lessons are structured to help students grasp key concepts and articulate them confidently.

Screen use is carefully supervised, with occasional educational activities such as digital dictations in grade 5.

## Development Goals

### Focus on Language Mastery

- French language at the core to develop strong reading and writing skills
- Connection-making between subjects through language
- Basic learning activities with rational explanations
- Key activities: Memorization, automatic skills practice, comprehension
- Gradual transition to more complex knowledge
- Development of critical thinking

### Reinforcement of Core Knowledge

- Strengthen notions in:  
French  
Mathematics  
Art  
Physical Education
- **Introduction to Specialized Knowledge:**  
History and Geography  
Science and Technology
- **Skills Development:**  
Abstract thinking  
Structuring and producing thoughts  
Adapting to academic methods and approaches

## School Hours

**Monday, Tuesday, Thursday:**

8:00 AM – 3:00 PM

3:00 PM – 5:00 PM: Homework support (optional)

**Wednesday, Friday:**

8:00 AM – 12:30 PM,

1:00 PM – 3:00PM slot is for extracurricular activities at school (optional)

## Homework & Workload

Daily Homework consists of short revisions and reading assignments, not exceeding 15 minutes per language. Tasks are designed for independent completion, with parental support limited to encouragement.

## Sample Schedule for Elementary School

In our elementary school curriculum, the distribution of subjects is carefully balanced to ensure a well-rounded education. While there are slight variations from one grade to another, the approximate proportion of each subject is as follows:

- Languages (including French and foreign languages) – 34%
- Mathematics & Sciences – 27%
- Reading & Writing in French – 15%
- Arts & Music – 8%
- History & Geography – 8%
- Physical Education (PE) – 8%

This structure allows students to develop strong linguistic skills, scientific reasoning, and cultural awareness while maintaining a dynamic and engaging learning experience.

	Mon	Tue	Wed	Thu	Fri
08:00					Morning greetings, Work Plan Setup and Work in Autonomy
09:00	Maths	Creative Arts	Reading & Writing in FR	Maths	Motor Skills Workshop Outdoors
10:00	Language streams lessons	Library	Creative Arts	Reading & Writing in FR	Maths

12:00	Motor Skills Workshop Indoors	Language streams lessons		Activities to develop autonomy	
13:00	Reading & Writing in FR	Maths		Language streams lessons	
14:00	Creative Arts	Reading & Writing in FR	Extracurriculars	Creative Arts	Extracurriculars
15:00		Homework support (optional)		Homework support (optional)	
16:00					
17:00					

\*Note that this schedule is just a sample. The daily program may vary by teacher and season.

**AGES 12-15**

## Middle school curriculum & daily framework

Middle school is a dynamic 4-year journey that introduces students to new subjects, responsibilities, and opportunities. It culminates in the Diplôme National du Brevet (DNB), the first major exam in the French education system, taken at the end of 9th grade. Along the way, students also have the chance to explore new languages, choosing from German or Spanish as a 4th language and additional optional subjects such as Latin.

### Classroom & Teaching Organization

Each subject is taught by a specialized teacher in a dedicated classroom, and students move between different classrooms throughout the day. To provide personalized support, every class is led by a homeroom teacher who oversees students' overall development and progress across all subjects.

While we prioritize the use of books and traditional paper in our curriculum, we also recognize the importance of technology in today's world. Students use digital tools in subjects like technology and math, and engage in coding activities through class projects and extracurricular workshops.

We also emphasize educating students about the responsible and safe use of screens and social media, ensuring they are equipped to navigate the digital world confidently.

### Middle School Diploma: The Brevet

At the end of 9th grade, students take an exam called the Diplôme National du Brevet (DNB). This is the first official exam in the French educational system, marking the end of middle school.

The Brevet is not only based on final exams: continuous assessment plays a significant role in the final grade. Students are evaluated throughout the year in all subjects of the curriculum.

The Brevet validates the skills learned in middle school and recognizes regular academic work. It also serves as preparation for future exams, such as the High School Baccalaureate.

#### The Middle School Diploma's Final Exam

- Mathematics
- Interdisciplinary oral exam
- French
- Sciences (biology, physic-chemistry or tech)
- History-Geography

## Homework & Workload

Students' workload gradually increases throughout middle school.

In the first two years (6th and 7th grades), students are given very little homework.

From 8th to 9th grade, the workload picks up, averaging 1 to 2 hours of homework per day.

We also set aside time during the school day for students to work on assignments, helping them manage their tasks efficiently.

## Sample Schedule for Middle School

Our middle school curriculum places a strong emphasis on language learning and sciences while maintaining a well-rounded balance across key academic and creative subjects.

Please note: the distribution may vary depending on the language stream and optional courses such as Latin, offering students the flexibility to personalize their learning path.

- Languages (including French and foreign languages) – 46%
- Mathematics, sciences and technology – 26%
- History & Geography – 11%
- Physical Education (PE) – 9%
- Arts & Music – 6%

	Mon	Tue	Wed	Thu	Fri
08:00	 Maths	History Geography	Spanish /German	Maths	Chinese
09:00	Study Hall	Chinese	Study Hall	EN literature	EN History Geography
10:00	Biology	EN literature	EN History Geography	Spanish /German	Latin
11:00	Maths in EN	Study Hall	EN literature	Maths	EN literature
12:00	 				
13:00	Maths in EN	PE in EN	French	Arts	French
14:00	History Geography	Physics	English	French	
15:00	 Chinese	Study Hall	PE	Study Hall	Music
16:00	Tech in EN			Spanish / German	Maths
17:00					

*\*Note that this schedule is just a sample from an 8th grade student enrolled in our International American Stream (SIA). The daily program varies by grade, language stream and options taken.*

**AGES 16-18**

## High school curriculum & diploma

High school in the French system is a challenging and transformative three-year journey that prepares students for the highly demanding and competitive high-school diploma, the French Baccalaureate. The workload increases significantly compared to middle school, with greater expectations for independent study, critical thinking, and consistent effort at home.

### Curriculum Organization

The first year of high school (10th grade) is a general year shared by all students, laying the groundwork across core subjects and allowing them to explore their strengths.

In 11th grade, students must select three specialty subjects based on their interests and future academic goals. These specialties become central to their schedule and learning.

By 12th grade, students narrow their focus to two of the three, which carry a heavier weight both in terms of weekly hours and their impact on the final Baccalaureate results. These choices play a crucial role in university admissions and shape each student's academic path.

### High School Diploma: The Baccalaureate

The French Baccalaureate is as internationally recognized (by American, European, Asian universities) for its rigorous academic standards and in-depth theoretical knowledge as other baccalaureates such as the IB, A-levels, or AP.

The French baccalaureate is comprised of eight exams, which contribute 60% of the final grade, while the remaining 40% is based on continuous assessment.

#### The International French Baccalaureate: Our Specificity

The BFI (Baccalauréat Français International) is designed for students who choose one of our two international language streams: the SIA (American International Section stream) or the SIC (Chinese International Section stream).

These students follow an enriched curriculum, taking some subjects—such as language and literature, History-Geography, and World Knowledge—in English or Chinese.

Throughout the year, they also attend additional classes tailored to their language stream, preparing them to sit exams in the chosen language for those subjects.

Global Recognition

“LFS was incredibly influential. I had some incredible teachers, especially in math, physics, and biology, who were always willing to help, even outside of class. The multidisciplinary approach at LFS prepared me well for my future studies, especially when it comes to languages.”

Guillaume  
Class of 2015

now Robotics Engineer  
in Switzerland

Sophie  
Class of 2016  
now Geopolitical  
Analyst in London

“The LFS played a huge role in shaping my academic path, particularly with its advanced Chinese program. The teachers were incredibly skilled and passionate, sparking my love for literature and philosophy. Beyond academics, the school offered an incredible learning environment, including the beautiful campus. It also fostered strong friendships that I still cherish a decade later.”

Serge  
Class of 2017  
now Trader in NYC

“LFS offered a rich experience in terms of diversity, flexibility, and generosity. At LFS, I applied to many universities. The guidance counseling at LFS, was a huge help in guiding me through the necessary exams and application process.”

# Learning Languages at Shanghai French School – Our Multilingualism

Shanghai French School is not just a bilingual or French school; we are a **trilingual institution** that actively encourages our students to embrace multilingualism— even beyond French, English, and Chinese. Why?

## Mandatory Languages from Kindergarten

French, Chinese, English

## Additional Languages from Grade 7

German, Spanish

## Languages available in extra-curricular activities at the school

Italian

## Language Certifications We Offer

1,400 average SAT score

An incredible score for students whose first language is not English!

100% success

90% reach a top grade A or B

## The Benefits of Multilingualism on Kids

### Cognitive flexibility

Improve multi-tasking  
Enhanced ability to focus

### Communication skills

Ability to focus on the key information  
Know the weight of words

### Empathy

Better problem-solving skills  
Increased conflict-resolution skills  
Greater adaptability

### More professional opportunities around the world

### Better working memory

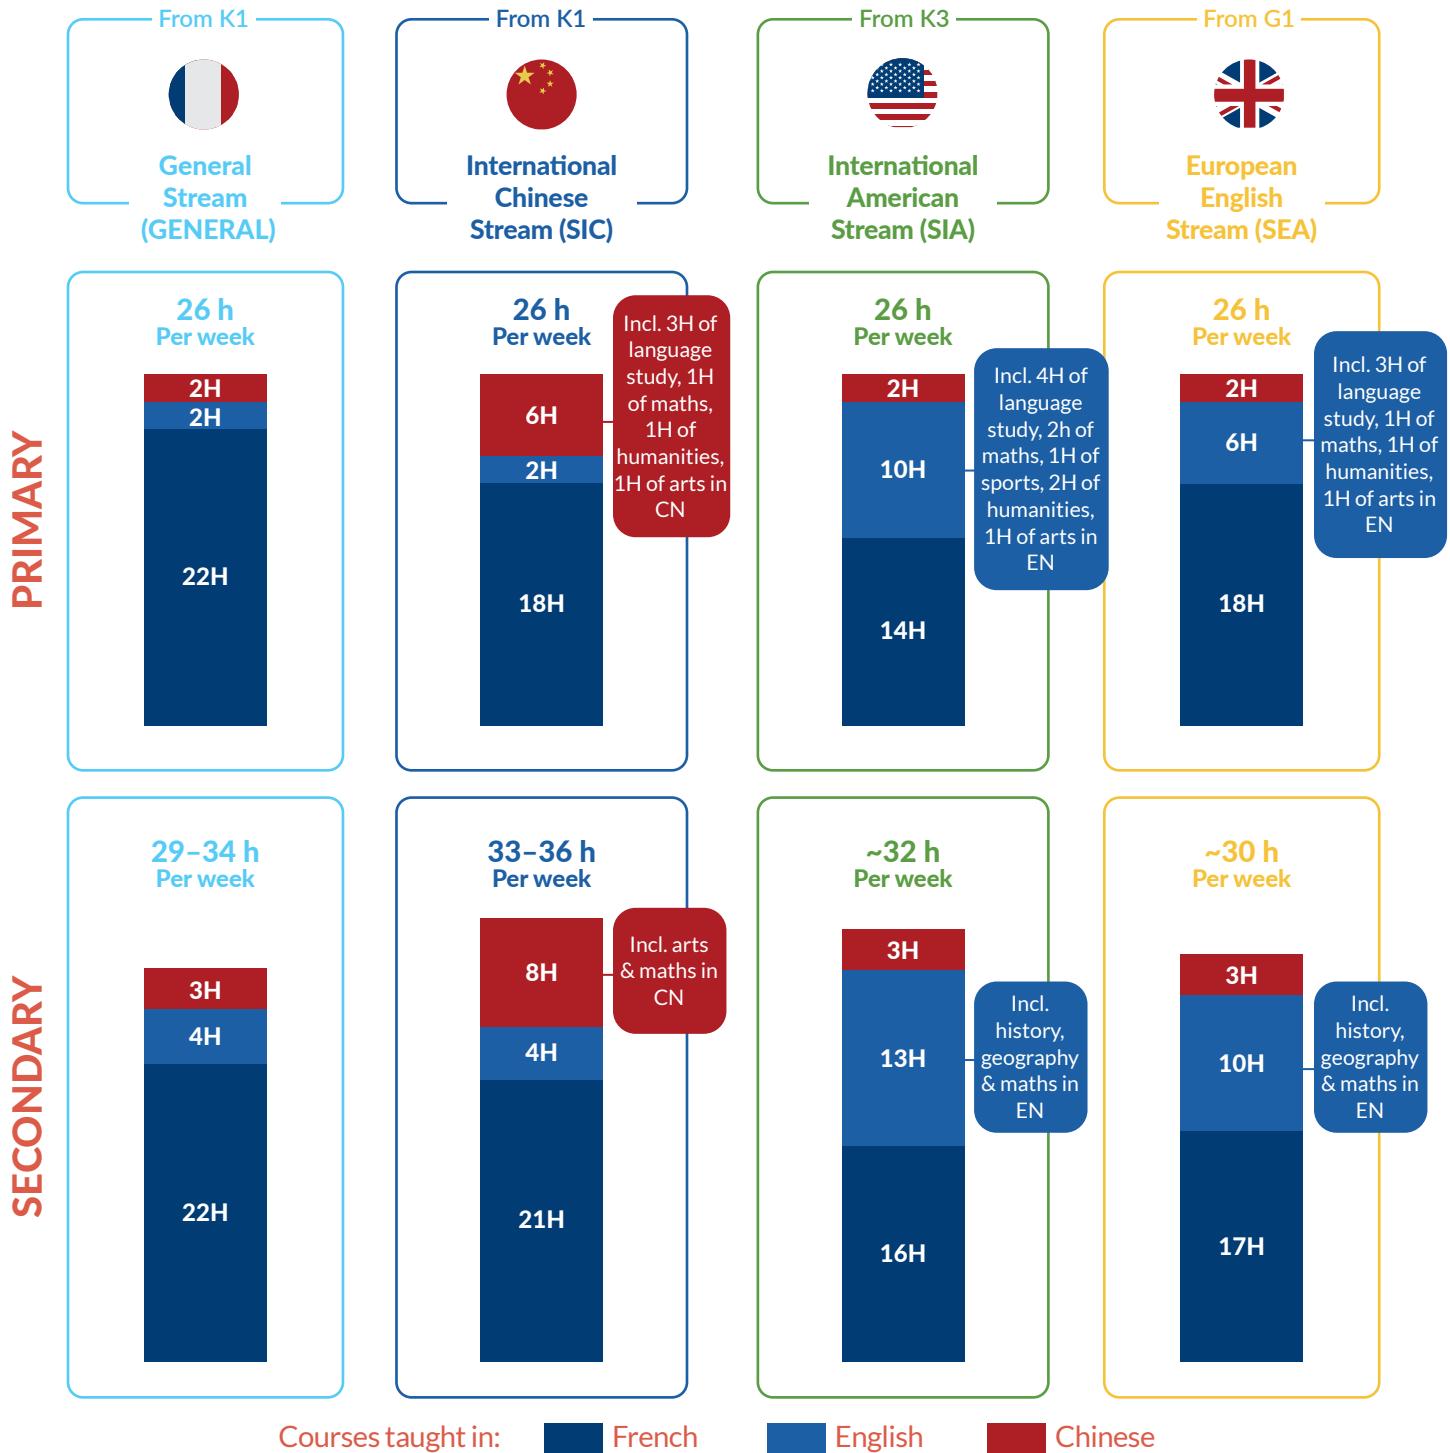

### Improved self-esteem

# Learning Languages at Shanghai French School

## – Our Language Streams

To provide students with a stimulating multicultural environment, we offer 4 unique streams, adapted to each student's needs:

Children who don't speak French will start in the General Stream, with the possibility to move into another language section later on as they progress.

Depending on their grade, students will engage with a variety of subjects taught in English, French or Chinese.

Arts

Sports

History

Geography

Mathematics

Knowledge of the world

Literature

# Immerse Your Child in French Language & Culture

Did you know that every year, we welcome new students who don't speak French yet and come from different international systems?

## 1. A Special Path For Non-French Speakers (Starting from K3)

Our FLSco program is a dedicated French learning program designed for non-native speakers, helping both students and families immerse in the language.

A **2** year program on average

**20+** teachers

**300+** supervised students from 4 to 18

Small learning groups

Up to **12**/week of personalized support

Within approximately 2 years, FLSco students, with no prior knowledge of French, typically adapt fully to the curriculum and achieve the same level of performance as their peers.

## 2. Arts & Music Culture

From enriching arts, partnerships with museums, music programs to cultural trips to France, students experience creativity in an authentic and immersive way.

## 3. The French Touch

- No uniforms at school
- Good study / life balance
- More active in class, "inquiry-based learning"
- Improved autonomy and organizational skills
- More books, less screens
- More interactions with teachers

## 4. Learning French Together

And even... French courses for parents to learn alongside their children. Over 100 parents are already enrolled, with classes held 2 hours per week.

# Non-French-Speaking families share: Why LFS was the right choice for Us

"I think the FLSco program is excellent. It's incredible that LFS has this kind of program, especially since it runs over two different years. In Emma's FLSco class, there are only a few students, so kids of the same age can go through this experience together. We chose the French School because we believe in the importance of languages and cultural understanding."

Emma's Family

Theodore's Family

"What really stood out to us about the Shanghai French School was that it was the only truly trilingual school we found in Shanghai. Before joining LFS, Theodore's mother tongue was Chinese. The FLSco program at the school is excellent—it helped him transition into French very smoothly, and they really managed parents' expectations well. Now, Theodore speaks to me in English and Chinese, and to his mom in French and Chinese. He switches between languages naturally, depending on where we are or who we're talking to. He can even watch movies in any of the three languages without any issue!"

Hibiki's Family

Giovanni & Chiara's Family

"Although Giovanni and Chiara are not native French speakers, they have received dedicated guidance from the excellent FLSco teachers, through the school's intensive French program. Impressively, in just a few months they had already mastered French and developed strong language skills. We think what's important is not just what they learn but how they learn, and how they internalize these things forever within their culture and throughout their lives."

# Shaping Tomorrow's Champions

70+ Extracurricular Activities for All Interests

Sports

Music

Sciences

Art and Crafts

Culture

Experienced, multilingual, and passionate — our coaches have been part of our trusted team for years. They specialize in leading a wide range of activities for children and create a vibrant, supportive environment. After-school activities are available in English, French, and Chinese.

## Competitions from primary school to high school

For those who love a challenge, we participate in more than 430 competitions yearly across China in local leagues and Asia-Pacific with other French Schools abroad.

We foster champions who thrive in team environments, pushing their limits, honing their talents, and leading by example.

# Developing students' soft skills

At Shanghai French School, we believe in cultivating confident, empathetic, and intelligent leaders for the future. Our students engage in meaningful community roles that foster leadership and collaboration, preparing them to make a difference in the world.

## Model United Nations

Step into the shoes of diplomats, debate global issues, and develop negotiation skills that make you a true leader.

## Student Leadership

From class representatives to event organizers, students develop leadership skills daily. They also thrive in student-led clubs like chess, magic, gardening, and reading, fostering teamwork and initiative.

## Impactful Initiatives

Whether it's through humanitarian projects, peer mentoring, or leading student-driven clubs, our students are deeply engaged in their communities and build valuable leadership skills. They proudly take part in programs such as The Young Ambassadors, Math.en.Jeans (scientific research project), the Orchestra and Choir of French Schools Abroad, and the French Mathematics Olympic team.

# A World-Class Teaching Team

At Shanghai French School, our teachers are either certified teachers from the French Education Nationale or experienced educators with international teaching degrees.

Coming from around the world, they share a common goal: to support each student's individual growth and help them reach their full potential.

In our language streams, all teachers are native speakers, ensuring authentic and high-quality language instruction.

**175+**  
teachers

**12** years

# Supporting Every Student's Success

Our goal is to ensure that every student reaches their full potential.

## Individualized Approach

Students receive personalized guidance through a collaborative effort from the pedagogical team, their main class teacher, and the school life team, who all know them individually.

## On-Campus Psychologists

Available on each campus, our psychologists provide emotional support and work closely with students and teachers to foster a positive learning environment.

## Personal university counselling guidance

Our dedicated counseling team offers personalized support, helping students achieve outstanding admissions to top universities.

### For all students

- **Weekly Individual Counseling:**

Guidance counselors available for one-on-one meetings and personalized follow-up.

- **Class Meetings:**

Regular check-ins to assess academic progress.

### For Middle School

- **Practical Projects:**

Activities like career expos, gender equality workshops, and science fairs introduce students to career paths and workplace issues.

### High School Counseling

- **Personalized Guidance:**

- Introduction to career orientation.

- Workshops on professions and higher education, plus detailed info on Bac specializations and post-Bac options.

- Preparation for internships and economic world exploration.

- Tailored guidance for final-year students' academic paths.

- **Career Events & Talks:**

- Career Fair featuring studies in France.
- Guest Speaker Sessions where professionals share industry insights.

- **Internships & Interview Simulations:**

- Company Observation Internships for 10th-grade students.
- Company Visits for 11th-grade students.
- Mock Interviews for 11th and 12th-grade students.

- **Individual Follow-up:**

- Academic Reviews to explore interests and select specializations.
- Application Support to help with French and international applications.

# Discover Our Two Cutting-Edge Campuses

With 50,000 m<sup>2</sup> in Qingpu and 56,000 m<sup>2</sup> in Yangpu, our school offers more than just space – it offers opportunity. Swimming pools, theater, sports halls, vast outdoor fields, libraries, international canteens, and dedicated art centers for music and visual arts – everything is designed to support student well-being and all-round development.

# Our Supporters

We grow with those who believe in us. Our partner companies play a key role in supporting the development of Shanghai French School. Together, we build strong, forward-looking collaborations that contribute to the growth of our community and the success of our students.
