

BUS TRACKING APP: HOW DOES IT WORK?

1. DOWNLOAD THE APPLICATION

Click on the link:
<http://stms.g-bos.cn>

Or

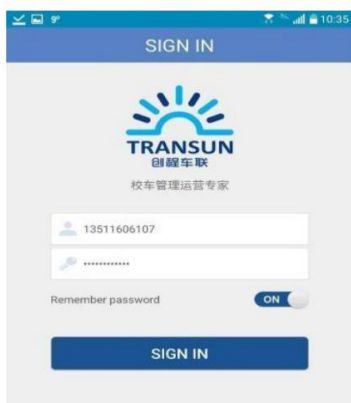

Scan the QR code accordingly
of the operating system
of your device

Scan with the camera, not via WeChat

Android & iOS

2. CONNECTION

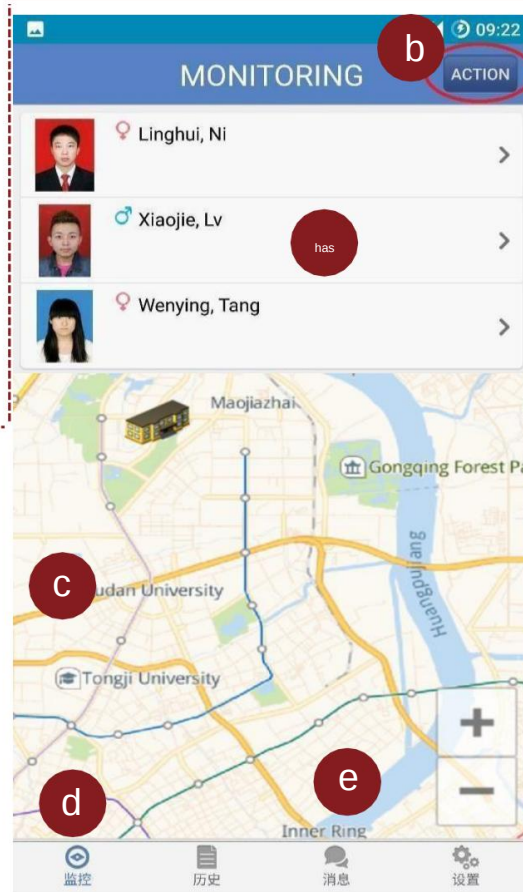

First time logging in Click on
“sign up” (not “sign in”),
at the bottom of the main page.
Then enter your mobile number and
a password.

Or

Daily Connection
Log in via the “login”
page.

3. INTERFACE

- a. Home page:** Follow your child's information in real time, at side of the bus.
- b. “Action” button:** Inform bus staff that your child will not be taking the bus on a certain date and/or for a specific route.
- c. Map:** The map shows the real-time location of the bus assigned to your child even if the child is not on board. This card is only active during the period of bus operation.
- d. Recording history:** History of badge validation when boarding and alighting from the bus.
- e. Messages:** Messages from the bus manager in case of unexpected events.

TECHNICAL ASSISTANCE

Map located on Beijing

When the vehicle is not operational and its GPS service is disabled, the map defaults to Beijing. It will automatically switch to Shanghai during off-peak hours.

bus operation.

Bus travel

The bus is constantly moving on the map, so everyone can follow the morning school pick-up in real time.

To be informed of the proper care of your child on board, consult the check-in history.
